Honorable Judge Kollar-Kotally,

I'm a concerned citizen requesting that you reject the proposed final judgment in the Microsoft antitrust case. The public would not be served by the slap on the wrist, as Microsoft would lack any deterrent from repeating its offenses.

The proposed final judgment also fails to address the issue of bolting software to its operating system that first led to this suit. It will thus be free to repeat the antitrust violations that have earned it billions of dollars a year.

Respectfully,

Mr. Bernard Rogers
